# WHO'S EYEING
UP YOUR TOOLS?

A workman needs his tools, so make sure you keep hold of yours by following these safety tips:

- When parking your vehicle anywhere overnight, always pay close attention to your surroundings.
- Make sure the area is well-lit, where possible remove tools from inside and make sure your vehicle is securely locked.
- Don't leave items on display, lock away tools out of sight and black out windows to prevent window shopping.
- Use an immobiliser and fit an alarm to the vehicle.
